INDEX

Anthore, R. *See* Lecoq, Anthore, Cichocki, Szymczak & Feuillebois

Bingham, H. B. *See* Fuhrman, Madsen & Bingham

Bonn, D. *See* Rafaï, Bonn & Boudaoud

Bottaro, A. *See* Zuccher, Luchini & Bottaro

Boudaoud, A. *See* Rafaï, Bonn & Boudaoud

Carati, D. *See* Knaepen, Kassinos & Carati

Cerbelli, S. *See* Giona, Cerbelli & Vitacolonna

Cichocki, B. *See* Lecoq, Anthore, Cichocki, Szymczak & Feuillebois

Crowdy, D. G. Explicit solutions for a steady vortex–wave interaction, 161–170

Dimitrakopoulos, P. Stress and configuration relaxation of an initially straight flexible polymer, 265–286

Fan, H. Symmetry breaking, ring formation and other phase boundary structures in shock tube experiments on retrograde fluids, 47–75

Feuillebois, F. *See* Lecoq, Anthore, Cichocki, Szymczak & Feuillebois

Fuhrman, D. R., Madsen, P. A. & Bingham, H. B. A numerical study of crescent waves, 309–342

Ghosal, S. *See* Lu & Ghosal

Giona, M., Cerbelli, S. & Vitacolonna, V. Universality and imaginary potentials in advection–diffusion equations in closed flows, 221–237

Higuera, F. J. Current/flow-rate characteristic of an electrospray with a small meniscus, 239–246

Jiménez, J. *See* Moisy & Jiménez

Jupp, T. E. & Woods, A. W. Reaction fronts in a porous medium following injection along a temperature gradient, 343–361

Kânoğlu, U. Nonlinear evolution and runup–rundown of long waves over a sloping beach, 363–372

Kassinos, S. *See* Knaepen, Kassinos & Carati

Knaepen, B., Kassinos, S. & Carati, D. Magnetohydrodynamic turbulence at moderate magnetic Reynolds number, 199–220

Lecoq, N., Anthore, R., Cichocki, B., Szymczak, P. & Feuillebois, F. Drag force on a sphere moving towards a corrugated wall, 247–264

Li, Z. *See* Xu & Li

Lu, Z. & Ghosal, S. Flame holes and flame disks on the surface of a diffusion flame, 287–307

Luchini, P. *See* Zuccher, Luchini & Bottaro

Madsen, P. A. *See* Fuhrman, Madsen & Bingham

Moisy, F. & Jiménez, J. Geometry and clustering of intense structures in isotropic turbulence, 111–133

Mungal, M. G. *See* Su & Mungal

Rafaï, S., Bonn, D. & Boudaoud, A. Spreading of non-Newtonian fluids on hydrophilic surfaces, 77–85

Struchtrup, H. *See* Torrilhon & Struchtrup

Su, L. K. & Mungal, M. G. Simultaneous measurements of scalar and velocity field evolution in turbulent crossflowing jets, 1–45
